Senior High School
Class Math and English program
| 2013 - 2015

WORK EXPERIENCE HISTORY

ALT Plus X Co.,Ltd
Software Developer. (Full Stack)
| June 2020 - August 2022

As a full-stack web developer with experience in ASP.NET MVC and C#, I have expertise in developing e-commerce and CMS web applications that meet the user's requirements. I conduct research and development to ensure the system's functionality and maintain the software code and supporting web applications post-deployment to production. With proficiency in using Agile in the software development life cycle, I collaborate with teams using Git for version control. My skills in front-end development, including HTML and CSS, and my knowledge of Transact-SQL (T-SQL) enable me to create high-quality and responsive web applications. Additionally, I have experience in developing payment functions using API of SCB to connect web applications with QR code payments.

Advanced Research Group Co., Ltd.
Intern. [AR Soft.]
| June 2019 - October 2019

With experience in system analysis, report development, and software testing, I am a skilled and detail-oriented professional with expertise in improving SQL queries and altering stored procedures in SQL Server databases to enhance server performance and user experience. My proficiency in Transact-SQL (T-SQL) and software system analysis, as well as report development using Jaspersoft iReport Designer tool, enables me to retrieve and format data for reports. Additionally, my manual testing skills, including generating test data, creating test cases and scenarios, and submitting defects, ensure the quality and accuracy of the developing system.
